

Math 214 Notes

Keshav Balwant Deoskar

March 5, 2024

These are notes taken from lectures on Differential Topology delivered by Eric C. Chen for UC Berkeley's Math 214 class in the Spring 2024 semester. Any errors that may have crept in are solely my fault.

Contents

1 **March 5 -**

2

1 March 5 -

There was no class on Feb 29 (midterm instead), so this is the first lecture after Sard's Theorem.

Recap

- Last time we showed the $m = 0, n = 0$ cases.
